**Design Manufacturing  
Assembly**

## Design + Manufacturing + Assembly

Walkways and catwalks, stairways, stages and other structures made from glass fibre reinforced plastics (GRP) – the complete package.

Structures made of glass fibre reinforced plastics (GRP) suitable for a wide range of industrial applications ranging from the chemical industry, transportation and shipping to environmental engineering.

For example, we design, supply and assemble following GRP structures:

- Access platforms
- Guard rail systems
- Stairways
- Ladders
- Cable trays
- Cover systems
- Bridges
- Customised special designs

Our DuroTec™ package comprises design, manufacturing and assembly – all from a single source.

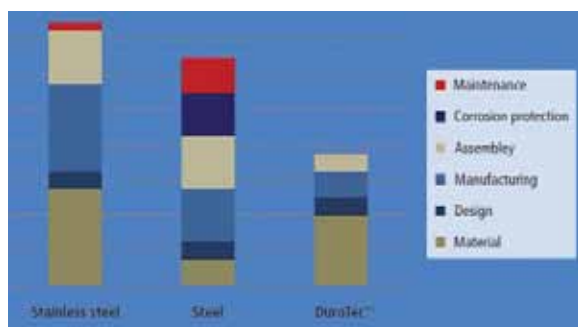

The continuous development of new and improved products for diverse applications enables us to meet the requirements of our customers in the best possible way.

Aside from the production, customer service is our top priority.

This includes:

- Support with respect to design, standards and regulations
- Preparation of assembly and manufacturing drawings
- Proof of structural stability
- Development of customised special solutions
- Professional on-site assembly

### Cost comparison: Stainless steel – Steel - DuroTec™

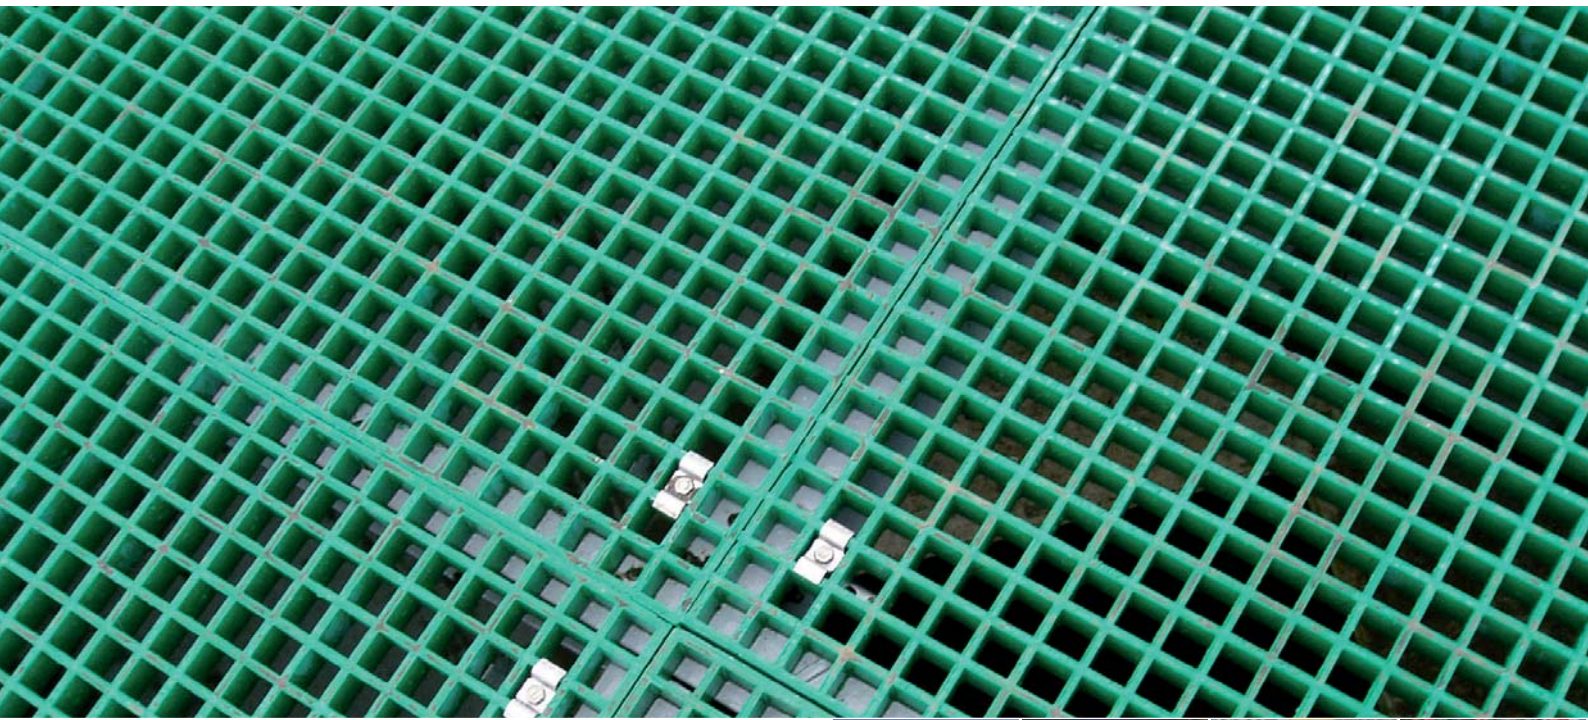

**Quality assurance** is a matter of course for us. Our products conform to the current **DIN/EN** standards and to the requirements of the German Accident Prevention Regulations (**UVV**) and the Employer's Liability Association (**BG**).

The various components are tested and certified by independent institutes.

**FiberConcept®** – the supplier for a corrosion-free future.
